

Scheduling

In autumn each year trainees can start with this further training. It will take about 2 years and will run in evening classes during the normal trainee period. The educational contents of the KMK-certificate in English and ECDL-certificate for data processing can be taught in normal lessons at school. Only the revision for the final examinations will take some extra time.

The contents of the European language certificate telc and the IHK-certificate 'International business processes' will be taught in extra lessons which will take place once or twice per week in the evenings or during the weekends.

The international internship can take place at any time during this further training.

In case of having successfully passed all examinations the participant will receive the diploma called "Zusatzqualifikation Internationales Wirtschaftsmanagement" ("Additional qualification International Business Management").

Value of this additional qualification
